WELCOME TO THE 12TH ANNUAL FILMQUEST

When did you know you were destined for the movies?

For me, while I had a sense as a teen that I was drawn to filmmaking and storytelling, I never had the tools or the opportunities to actually make a film. That was until I was a young missionary in Manchester, England. We had this little white rule book we carried around with us - *just in case* - and by the time I got home it was filled with numerous microscopic handwritten notes for stories and ideas for films and TV shows that came to me over the course of my two years in the UK. I realize now that these little tales were my first "movies." These first tiny scribbles of inspiration have proven to be my initial foundation of what would eventually become a unique and rewarding life in the movies.

As you read through this guide, never forget that you are in the company of wizards and sorcerers. The tales told by the films in these pages weave a magic that is unlike any other - a sorcery that captivates, compels, inspires, and changes lives. Genre film reigns supreme because within it we are allowed to dream bigger, where what was once impossible becomes our reality, and the ideas of yesterday are challenged and shattered forevermore.

Remember that within this Book of Spells are stories that have come from a filmmaker who answered their own call of destiny. In so doing, they have become one of the boldest and brightest genre filmmakers in the world today, and within each of them is a work yet to be revealed that will shake the industry if given the chance.

Look at this book again. Now what do you see? It is no longer just a book of stories and films, but rather it has become a tome of *Power*. With it comes great responsibility, and you are now entrusted to care for it well. For the power of genre compels you, and destiny calls for you next.
